## EDUCATION:

- Potomac Falls High School, Advanced Diploma, 2014
- Northwestern University, Full-Stack Web Developer Certification, Sept 2021 - Mar 2022

## SKILLS:

- HTML5, CSS3, JavaScript(ES6)

## PROJECTS:

- **Tourism Planner** project which utilizes two free server side APIs (Bing Maps API, Open Trip Map) to create an app which allows users to search for any city worldwide using the fetch method. The search then renders attractions for that city and the user is able to save any location to the local storage.
- **NeighborGoods** project which is a full stack app that connects to a database, uses RESTful routing, has user authentication, and uses Handlebar.js templating.
- **Employee Tracker** is a command-line app that utilizes Node.js, Inquirer and MySQL2 to manage a company's employee database as a content management system.
- **Social Network** is a back-end app that utilizes a MongoDB database using the Mongoose package and RESTful routing to allow a user to share their thoughts, react to friend's thoughts, and create a friends list.
